

TLIF0005

APPLY

A Fatigue Risk Management System

Cost
\$250 pp

Who Should Attend?

Drivers • Operators • Loaders

As of July 1st 2018 the National Heavy Vehicle Regulator has implemented a change in the training requirements for road transport operators, schedulers and drivers. The new fatigue subjects provide drivers, schedulers, supervisors and managers with information critical to effectively manage the risk of fatigue in road transport operations.

NHVR have released the following subject to meet the new requirements:

TLIF0005 - Apply a fatigue risk management system
(replaces unit TLIF2010) – Drivers

The NHVR will continue to recognise qualifications in TLIF2010 and TLIF3063 for NHVAS purposes if they have a completion date prior to 1st July 2018.

The Strategix Apply a Fatigue Risk Management System course is ideal for drivers or operators that are working within the transport industry. The course is designed to provide the skills and strategies to monitor and manage personal fatigue within a fatigue management system.

The course will cover

- Identifying and managing fatigue risk
- Operating within a fatigue management system
- Planning and navigating trips
- Complying with work rest hours
- Updating and maintaining records

As a driver or operator you have a legal responsibility to take all reasonable steps to ensure the safety of others and yourself by managing your fatigue appropriately.
