

# MEMBER SERVICE

## SKILLS & TRAINING

The QTA advocate for industry led education and training programs and initiatives to build a sustainable workforce for the future.

We support the development of industry relevant skills sets, qualifications and programs that develop 'job ready' employees to enter the industry.

Our focus is to improve the capability of the industry to attract new entrants, retain existing workers and increase the importance of upskilling the workforce.

There are a range of projects that we lead to support the industry to building capacity and capability within new and existing workforces.

## WHAT WE HELP WITH

- Provide advice on VET training and skilling
- Referral to funding and incentive programs
- Identifying areas where funding support may be required to address training and workforce demands
- Highlighting emerging and current workforce trends
- Connection to business supports and programs
- Information delivery through workshops and seminars
- Voice to Government on sector specific industry issues and involvement in committees eg. Industry Reference Groups, Transport & Logistics Workforce Advisory Committee (TLWAC), H2O Building Industry Supply Capability (Skills/Jobs) Working Group, DESBT Regional Office engagement
- Raise awareness of training product development and encourage industry feedback to ensure products suit the training needs of industry
- Administer projects that contribute to building a sustainable workforce for the future.

## VET 4 T&L

The QTA have been the government appointed Industry Skills Advisor for the Transport and Logistics Industry sector since 2014. This program is funded by the Department of Employment, Small Business and Training (DESBT) to engage with industry stakeholders to obtain advice and intelligence on current and emerging workforce directions, skills needs, training solutions, training product development, jobs growth and employment opportunities to assist in decisions around investment settings and training and skilling priorities.

VET 4 T&L is an industry engagement program covering all sectors of industry - road transport, passenger transport, logistics, rail, aviation and maritime. The program aims to raise awareness about vocational education and training opportunities available to industry.

Visit the [Future Ready Workforce](#) website or [subscribe to the VET4T&L newsletter](#) to keep up-to-date with what really matters to your industry.
