

MEMBER SERVICE

WORKPLACE HEALTH AND SAFETY

This member service is provided by highly qualified and experienced WHS and Risk specialists who have extensive experience working within the road freight industry and in the regulatory environment.

This general advice and support service only is provided to QTA members through an external organisation, DWF Risk, who have WHS expertise to help manage your compliance and legislative obligations.

DWF have earned a reputation for delivering consistently high standards of work and innovative solutions for the road transport industry including: a national regulatory agency; major transport companies; labour hire providers to the transport industry; and peak transport industry associations.
